My Profile

Elliot Lawrence
DEVELOPER

About Me

I'm a recent university graduate ready to grow into developer role. I love to create beautiful and useful web applications that people genuinely enjoy using. I'm AI-native but still believe in learning and improving my own ability to solve hard problems. I treat every project as a chance to sharpen my skills and solve complex problems with creativity and precision.

Education

University of Auckland
Bachelor of Science in Computer Science (2024)

References

Nicholas Robertson see letter of recommendation attached.

Other Referees available on request.

Experience

Sparefish Limited
React Developer
- Built pixel-perfect user interfaces for clients from UI-UX designs.
- Worked primarily on e-commerce web applications with some Shopify integration.

Prose
Co-Founder
- Web design and development of an Insurance SaaS product.
- Honed skills in Figma, React, Vite, Tailwind, and Shadcn.

Recent Projects

One Dose Web App
Built an e-commerce journey for an Australian start-up simplifying pool chemical maintenance. Translated Figma designs into a fully integrated front-end that connects seamlessly with Shopify. Business plans to take orders in October 2025.

Prose
Streamlining the way insurance brokers prepare proposals. As the Front-End owner, I'm responsible for designing anything a user sees or interacts with. Aiming for a notion-like editor with the formality of Xero. In production with 1 pilot user by Q2 2026.

Roam Wars
Developing a real-world location-based game blending Pokémon Go and Turf Wars. Part of a four person team using React for the front end and Postgres GIS features on the back end. Players compete for territory through physical activity, with Strava integration in progress.

Capstone Project (Community Impact Award)
Created Trippa, a carpooling app promoting sustainable commuting across New Zealand. Used React Native, .NET, and Azure to deliver real-time messaging, secure authentication, and API integrations. Recognised by the University of Auckland with the Community Impact Award.

Interests & Achievements

Bouldering
Regular climber and occasional competitor in local events. I enjoy the problem-solving aspect and the community atmosphere both indoor and out.

Football
Former captain of an Auckland United team, leading practices and representing the club in competitions.

Motuihe/Motutapu Island Conservation
Volunteered in tree planting and environmental conservation projects, contributing to the restoration of native habitats and learning about New Zealand's unique ecosystems.

Duke of Edinburgh's Gold Award
Recognised for completing challenges in self-improvement, physical activity, volunteering, and expeditions.

Music Production
I produce various genres of electronic music as a creative outlet.

Gaming
Passionate about gaming, possibly too passionate, if my Steam hours are anything to go by.
